### CITY OF TORONTO NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for Special Legislation to provide:

1. That the City may require the payment of fees for information relating to any land, building or structure and further may require the payment of a fee as prescribed for the inspection of any premises for compliance with *The Building Code Act, 1974* and regulations thereunder, that is required in respect of any licence under *The Liquor Licence Act, 1975* and regulations thereunder.
2. That the persons entitled to notice of the intention of the City to pass a by-law instituting permit parking on any city street be those shown on the last assessment roll returned to the Clerk or in such other record or document as may be determined appropriate by the City Clerk.
3. That the City may designate any area within the City to which a by-law prescribing standards for the repair and maintenance of non-residential property applies, as an area of demolition control and thereafter no person shall demolish the whole

or any part of any non-residential property, as defined, without being the holder of a demolition permit issued by the council. The proposed legislation would give the council powers in respect of the demolition of non-residential buildings similar to those which the council now has in respect of the demolition of residential buildings under section 37a of *The Planning Act*.

4. That orders issued under the City's standard of housing legislation will be given to all occupants over the age of 21 known to the inspector by pre-paid first-class mail instead of by personal or substitute service as is now required.
5. For passing by-laws authorizing front-yard parking, as defined, and in connection therewith:
  - (a) providing for the issuing of permits and for establishing criteria and procedures to be followed in connection therewith;
  - (b) prescribing requirements for the use of private property for front yard parking and for prescribing a procedure whereby council or a standing committee thereof may grant variances from such requirements;
  - (c) defining the conditions which may be imposed on the issuing of permits and limiting the number of spaces to be used for front yard parking on any private property and for providing for the issuing of identifying markers

and the manner by which such markers are to be affixed and for requiring the payment of fees.

The proposed legislation will provide that section 35 of *The Planning Act* shall not apply to such by-laws.

6. That the City may by by-law require the payment of fees for the issuance of water rate or rent and sewage service rate statements of account, and may prescribe the amounts of the fees.
7. That the City may refund in whole or in part, in accordance with the formula set out in the proposed legislation, the taxes collected by the special charge levied pursuant to section 361 of *The Municipal Act* that are unspent at the refund date as determined by the City Treasurer, to the persons in the Upper Yonge Village Business Improvement Area who paid the levy.
8. That the City may by by-law designate any area covered by an official plan as an energy conservation area and thereafter no person shall undertake any development, as defined, unless council or the Ontario Municipal Board has approved an energy use statement. The proposed legislation also provides that the City may define any class or classes of development which may be undertaken without the approval of an energy use statement and may with certain exceptions delegate to a committee of council or an appointed official any of the council's power or authority under the proposed section. It may be required, as a condition of approval of the energy use statement, that the owner of the land provide and maintain such facilities, matters and construction and design details as shall conserve the use of energy, and enter into one or more agreements with the City dealing therewith, which agreements may be registered against the land and enforced against the owner and subsequent owners. The proposed legislation will provide for certain appeals to the Ontario Municipal Board.

CITY OF TORONTO  
NOTICE OF APPLICATION  
FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for Special Legislation to provide:

1. That the City may require the payment of fees for information relating to any land, building or structure and further may require the payment of a fee as prescribed for the inspection of any premises for compliance with *The Building Code Act, 1974* and regulations thereunder, that is required in respect of any licence under *The Liquor Licence Act, 1975* and regulations thereunder.
2. That the persons entitled to notice of the intention of the City to pass a by-law instituting permit parking on any city street be those shown on the last assessment roll returned to the Clerk or in such other record or document as may be determined appropriate by the City Clerk.
3. That the City may designate any area within the City to which a by-law prescribing standards for the repair and maintenance of non-residential property applies, as an area of demolition control and thereafter no person shall demolish the whole
- or any part of any non-residential property, as defined, without being the holder of a demolition permit issued by the council. The proposed legislation would give the council powers in respect of the demolition of non-residential buildings similar to those which the council now has in respect of the demolition of residential buildings under section 37a of *The Planning Act*.
4. That orders issued under the City's standard of housing legislation will be given to all occupants over the age of 21 known to the inspector by pre-paid first-class mail instead of by personal or substitute service as is now required.
5. For passing by-laws authorizing front-yard parking, as defined, and in connection therewith:

(a) providing for the issuing of permits and for establishing criteria and procedures to be followed in connection therewith;

(b) prescribing requirements for the use of private property for front yard parking and for prescribing a procedure whereby council or a standing committee thereof may grant variances from such requirements;

(c) defining the conditions which may be imposed on the issuing of permits and limiting the number of spaces to be used for front yard parking on any private property and for providing for the issuing of identifying markers

and the manner by which such markers are to be affixed and for requiring the payment of fees.

The proposed legislation will provide that section 35 of *The Planning Act* shall not apply to such by-laws.

6. That the City may by by-law require the payment of fees for the issuance of water rate or rent and sewage service rate statements of account, and may prescribe the amounts of the fees.
7. That the City may refund in whole or in part, in accordance with the formula set out in the proposed legislation, the taxes collected by the special charge levied pursuant to section 361 of *The Municipal Act* that are unspent at the refund date as determined by the City Treasurer, to the persons in the Upper Yonge Village Business Improvement Area who paid the levy.
8. That the City may by by-law designate any area covered by an official plan as an energy conservation area and thereafter no person shall undertake any development, as defined, unless council or the Ontario Municipal Board has approved an energy use statement. The proposed legislation also provides that the City may define any class or classes of development which may be undertaken without the approval of an energy use statement and may with certain exceptions delegate to a committee of council or an appointed official any of the council's power or authority under the proposed section. It may be required, as a condition of approval of the energy use statement, that the owner of the land provide and maintain such facilities, matters and construction and design details as shall conserve the use of energy, and enter into one or more agreements with the City dealing therewith, which agreements may be registered against the land and enforced against the owner and subsequent owners. The proposed legislation will provide for certain appeals to the Ontario Municipal Board.

## Schedule 15

## SCHEDULE OF BENEFITS

**PREAMBLE****A. General**

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation (see Appendix A for a list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Claims for services which are not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation should not be submitted to the Plan. Such services may be charged directly to patients or others requesting them.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

12. Documentation: whenever a physician examines or treats a patient, an appropriate record of this service must be made and such record must be in keeping with section 28 of Regulation 577/75 of the Health Disciplines Act, 1974 (see Appendix B).

13. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the Minister made it very clear that he is looking to the College and the Medical Schools to en-

## PREAMBLE

sure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect:—

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered:—

- (a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.
- (b) In psychotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview review and in direct supervision.
- (c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.
- (d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

14. Charges for missed appointments are not benefits of O.H.I.P.

## B. Terms and Definitions

**Call or Visit:** is the service by a physician to or on behalf of a patient for assessment and/or treatment.

### 1. Consultations:

- (a) A consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory and/or other data and submit his findings, opinions and recommendations in writing to the referring physician.
- (b) If a consultant is requested by a physician on duty in the emergency department to

## PREAMBLE

see a patient in consultation, the consultant may claim a consultation for this service. If the consultant is requested to perform this same service by a resident or intern, the consultant may claim a general or specific assessment according to his specialty.

- (c) For laboratory and procedural benefits connected with consultations, see listings of Laboratory Medicine and Diagnostic and Therapeutic Procedures.
- (d) A consultation is not to be claimed as such when:
  - (i) The patient presents himself to a consultant's office without prior knowledge of the primary physician. The sending of a report to the primary physician under these circumstances does not justify a claim for a consultation.
  - (ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.
- (e) A limited consultation may involve all of the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.
- (f) A diagnostic radiology consultation applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night (5.00 p.m. to 7.00 a.m.), Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.
- (g) A diagnostic pathology consultation applies when tissue slides are referred to a second pathologist for a written opinion. It includes secretarial or other assistance and does not apply when the tissue slides referred to above are used for comparison with tissue slides done in the consultant's facilities. When a diagnostic pathology consultation fee is claimed L821 may not also be claimed.
- (h) A pathology consultation or repeat consultation applies when a pathologist is requested to examine a patient and provide a written opinion.
- (i) A diagnostic nuclear medicine consultation applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion or when the nuclear medicine physician is required to make a special visit at night (5.00 p.m. to 7.00 a.m.), Saturday, Sunday or Holiday to consult on the advisability of performing a nuclear medicine procedure which eventually is not done. A consultation does not apply when procedures done elsewhere are used for comparison purposes with nuclear medicine studies made in the consultant's facilities.
- (j) A nuclear medicine consultation or repeat consultation applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may be done in conjunction with a nuclear medicine study but if so, the lesser professional benefit ( $P_2$ ) rather than the greater benefit ( $P_1$ ) should be claimed in addition to the technical (T) benefit.
- (k) Some nuclear medicine specialists have other specialist qualifications which allow

## PREAMBLE

them to claim other consultation benefits (e.g., internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g., internal medicine) but would not be combined with a claim for such a consultation by the same consultant.

- (1) A prenatal consultation by a paediatrician applies when a physician considers a foetus of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a postnatal consultation on the infant.

2. **Repeat Consultation:** requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.

3. **General Assessment:** shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.\*

4. **General Re-Assessment:** shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.\*

5. **Specific Assessment:** shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.\*

6. **Specific Re-Assessment:** shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole. \*Specific re-assessments in the medical specialities apply in the management and assessment of the progress of serious chronic disease and are not to be claimed for treating minor conditions or solely for following the progress of treatment. If a specialist performs a second specific assessment on a patient within a year's time and the diagnosis is the same, the physician should claim for this second service on the basis of a specific re-assessment.

Physicians qualified in two specialities (EENT for example) may only claim for one visit, eg: a consultation (if referred) or a specific assessment (if non-referred), if both systems are examined during the same visit. However, two consultations or two specific assessments, etc. may be claimed if both systems are examined, each on a separate visit.

7. **Intermediate Assessment:** is a more extensive assessment than a minor assessment and shall comprise a full history of the presenting complaint(s), enquiry concerning and examination of the affected part(s), region(s), or system(s) as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.\*

\*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

## PREAMBLE

8. **Minor Assessment:** is a brief assessment comprising the necessary history, examination of the affected part or region, an appropriate record and advice to the patient. It also applies to a subsequent visit solely for assessing the response to treatment of a previously diagnosed condition when no additional clinical assessment is required and performed.\*

9. **Psychotherapy:** is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately establishes a professional relationship with a patient for the purposes of removing, modifying or retarding existing symptoms or attenuating or reversing disturbed patterns of behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed for if a half hour or major part thereof has been spent in such treatment of the patient. Psychotherapy may not be claimed by more than one physician for the same patient at the same time.

Please note that the College of Physicians and Surgeons of Ontario has stated that "in order to qualify for a psychotherapy claim, a minimum of twenty minutes must be spent with the patient. When psychotherapy extends beyond thirty minutes, the major part of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after an hour of psychotherapy, the major part of the next half hour must be spent to qualify for an additional half hour fee and so on." (Medical Review Committee Bulletin, Volume 3, Number 1.)

10. **Counselling:** as distinct from psychotherapy, counselling is that activity in which the physician engages in an educational dialogue with the patient(s) on an individual or group basis wherein the goal of the physician and patient(s) is to become aware of the patient(s) problems or situation and of modalities for prevention and/or treatment. Counselling is not intended for ongoing treatment or a substitute for a patient assessment, and it must be rendered personally by the attending physician.

### 11. Examinations of Well Persons:

(a) Age: (unless otherwise specified)

Newborn — up to 10 days of age.

Infant — up to 2 years

Child — up to and including 15 years

Adolescent — up to and including 17 years

Adult — 18 years or over.

(b) **Newborn Care:** is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits, and normally may not be claimed for the same patient by more than one physician.

When a well baby is transferred to another hospital (because of the mother's state of health, for example) claims for newborn care by a physician at each hospital may be appropriate.

(c) **Low Birth Weight Care:** is the care of a baby weighing less than 2.5 kilograms at birth.

\*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

## PREAMBLE

- (d) **Well Baby Care:** the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements and instructions to the parent(s) regarding health care. O.H.I.P. benefits are limited to ten such visits.
- (e) **Annual Health or Annual Physical Examination (Including Primary and Secondary School Examinations):** shall comprise all the elements of a general assessment as it pertains to an individual who presents and reveals no apparent physical or mental illness. O.H.I.P. benefits are limited to one Annual Health Examination per patient per year after the second birthdate. To qualify for O.H.I.P. benefits, an Annual Health Examination normally must be requested by the patient rather than a third party. Under Regulation 323 of The Health Insurance Act, 1972, examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.

### Other Terms, Definitions and Guidelines

12. **Coding:** This schedule lists a code number opposite most items. Items which are not coded are identified either as U.V.C. or N.C.

U.V.C. — use visit codes applicable to the pertinent service and specialty.

N.C. — no code applicable. This service is not a benefit (N.A.B.) of O.H.I.P., and may be charged directly to patients.

For the surgery portion of this schedule, physicians submitting claims in coded form should add to the code numbers, the suffix A if they perform the procedure, the suffix B if they have assisted at the surgery or the suffix C if they have administered the anaesthetic.

For those diagnostic and/or therapeutic procedures which have the technical and professional components listed separately, but under the same code, the suffix A should be added to the code numbers when both components are being claimed, the suffix B when only the technical component is being claimed, or the suffix C when only the professional component is being claimed.

Where separate codes are listed for the technical or the professional components, the suffix A should be used.

For diagnostic radiology, only one code is listed for each service, even though some of these services may be provided by non-certified radiologists. The code for services rendered by non-certified radiologists should be obtained by increasing the first digit in the listed codes by 5. Thus, for example, the code for the service listed as X001 but rendered by a non-certified radiologist would be X501 plus the appropriate suffix.

13. **General Listings:** include the basic listings for consultations, assessments and other visits wherever they are rendered, except for non-emergency services to hospital or long-term care institution in-patients and for care rendered by a physician on duty in an emergency department. These latter services are listed separately in the Schedule.

## PREAMBLE

A visit rendered to a patient in a rest home, lodge, detoxification centre, half-way house, or other institution not covered elsewhere in the Schedule, should be claimed under the General Listings.

**14. Non-Emergency Hospital In-Patient Services:** include the listings for consultations and other visits to registered bed patients. When the patient has not been seen previously by the physician in charge, the first visit after admission may be claimed as a consultation or general or specific assessment if appropriate. Where the patient has been previously attended before admission, the first visit after admission may be claimed as a general reassessment or specific reassessment if the patient has been seen before in the same illness, depending on the specialty. (Such assessments or reassessments are considered to be the hospital "admission assessment" and may not be claimed more than once during a hospital admission.) Subsequent routine visits should be claimed as "subsequent visits (minor assessments)" Claims for daily hospital visits must not be made unless a physician actually visits the patient each day. Prior to the weekly and monthly limitations that apply after a patient has been in hospital for 5 weeks (6 weeks for paediatricians), payments for hospital visits generally are limited to one per patient per day. For acute illnesses or exacerbation of original illness requiring additional visits before or after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.

When a patient in hospital is referred by one physician to another, the second physician will not be limited by the Subsequent Hospital Visit formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to five weeks just as if the patient was being attended to in hospital for the first time. However, if the patient is transferred to the care of another physician, the Subsequent Hospital Visit formula would apply just as it would if only one physician was involved in the care.

**15. Emergency Department — Physician on Duty Services:** include the listings for minor and multiple systems assessment and the specific premiums applicable to these two services. A physician on duty in the Emergency Department regardless of his specialty should submit claims under these listings. A physician who is not on duty in the Emergency Department should use the General Listings when seeing patients in the emergency or out-patient departments. See Appendix C for further guidelines to claiming for services rendered in the Emergency Department.

**16. Long-Term Institutional Care:** includes the listings for consultations, assessments and other visits to patients in chronic care hospitals, convalescent hospitals, nursing homes and other institutions in which such patients are covered by extended care legislation.

Admission assessments to long term care institutions are classified as —

Type 1 — applies when (a) no medical history has been provided to the admitting physician, (b) the admitting physician takes the history of past and present illness, carries out a general assessment and provides a report for the medical record.

Type 2 — applies when (a) the report of the history and examination has been written by another physician, (b) the admitting physician reviews the report and decides it is necessary to repeat the history and general assessment and provides a report for the medical record.

Type 3 — applies when (a) there is a report of the history and general assessment made by the same (as the admitting) physician prior to admission or, (b) when the

## PREAMBLE

admitting physician writes an admission note describing the condition of the resident following admission.

**17. Visit for Procedure:** when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions.) When procedures are carried out in the office, emergency or outpatient department on an elective basis, a special visit should not be claimed in addition to the procedural fee.

When procedure(s) are carried out under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant. "Procedures" in this context do not include such services as assessments, consultations, psychotherapy, etc. Direct supervision requires that during the procedure the physician be physically present in the office or clinic at which the service is rendered.\*\* While this does not preclude the physician from being otherwise occupied he should be in personal attendance on enough occasions to ensure that procedures are being performed competently and he must at all times be available immediately to approve, modify or otherwise intervene in a procedure as required in the best interests of the patient.

For physiotherapy procedures performed by a physiotherapist under direct physician's supervision as detailed above, see Code G467 on Page 98.

### 18. Premiums:

#### (a) Special visits —

- (i) A special visit is one which is initiated by the patient or his representative which requires a physician to travel from one location to another to see a patient(s). That is, when the physician is not already in the office, hospital, institution, patient's home, etc. and is called to make a special trip there to attend a patient, a "special visit" premium may be claimed. The premium(s) for a special visit to the office only applies outside of normal office hours but does apply whether or not the office is in the physician's home.

If an institution has arranged to have quarters in the same or in a proximal building in order that a physician will be available to make visits to the institution, particularly at night, these are not considered to be "special visits" to the institution.

When services are rendered on an emergency basis at a site other than listed in this schedule (e.g. roadside, ski slope, etc). the special visit premiums are applicable.

If a physician is called to pronounce a patient dead, a minor assessment may be claimed along with the appropriate surcharge for the special visit.

- (ii) An emergency call with sacrifice of office hours may be claimed in a situation where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately at the sacrifice of regular office hours.

\*\*Some procedures may not require the physical presence of a physician for adequate supervision. Exceptions to this requirement of direct supervision may be made upon recommendation of the Ontario Medical Association and the College of Physicians and Surgeons of Ontario.

PREAMBLE

- (iii) A special visit at night or on a Saturday, Sunday or holiday may be claimed when non-elective or emergent calls are made between the hours of 5.00 pm and 7:00 am or are received and made on Saturdays, Sundays and Holidays. "Holidays" are defined for the purpose of this schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Dominion Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. If any of these holidays fall on a Saturday or Sunday, at the physician's discretion either the Friday before or the Monday following will be recognized as the holiday. When Christmas Day falls on a Saturday or Sunday the Holiday premium H106 for a physician on duty in the emergency department applies to Christmas Day as well as to the day recognized as the holiday.
- (iv) Only one special visit premium (daytime: sacrifice of office hours; or nights, Saturdays, Sundays and Holidays) may be claimed for the same patient, same visit. The special visit premiums apply only to emergent or non-elective calls and do not apply to non-referred or transferred obstetrics. The premiums do not apply to visits on regular rounds, and admission assessments of patients who have been admitted to hospital, etc. on an elective basis do not qualify as "special visits", regardless of the time performed.

Special Visit Benefits:—(applicable in addition to benefits for services listed under "Consultations and Visits" and "Critical Care") K992, C992, K993, C993 also are applicable to assistant at emergency surgery.

- (v) Daytime (Monday to Friday) special visit to Emergency Department or O.P.D.
  - K990 First patient assessed ..... add \$ 7.60
  - K991 For each additional patient requiring a special visit and assessed during same special visit ..... add \$ 1.40
- (vi) Emergency call with sacrifice of office hours —
  - K992 first patient assessed ..... add \$15.30
  - K993 for each additional patient requiring a special visit and assessed during same special visit ..... add \$ 2.80
- (vii) Nights, Saturdays, Sundays, Holidays —
  - K994 first patient assessed ..... add \$15.30
  - K995 for each additional patient requiring a special visit and assessed during same special visit ..... add \$ 2.80
- (viii) Special visit to office —

The above benefits apply, but the prefix "A" should be substituted for the prefix "K" in the code (e.g. A990 instead of K990).
- (ix) Special visit to patient's home —

The above benefits apply, but the prefix "B" should be substituted for the prefix "K" in the code (e.g. B992 instead of K992).
- (x) Special visit to hospital in-patient —

The above benefits apply, but the prefix "C" should be substituted for the prefix "K" in the code (e.g. C992 instead of K992).
- (xi) Special visit to long-term care institution —

The above benefits apply, but the prefix "W" should be substituted for the prefix "K" in the code (e.g. W992 instead of K992).

## PREAMBLE

- (xii) Special visit to any setting not listed above, or emergency services at the roadside, ski slope, etc.

The above benefits apply, but the prefix "Q" should be substituted for the prefix "K" in the code (e.g. Q994 instead of K994).

- (xiii) Emergency procedures —

**E409** For procedures rendered on an emergency or non elective basis (excluding non-referred or transferred obstetrics but including Caesarian sections) commencing after 5:00 p.m. and before 7:00 a.m. or on Saturdays, Sundays and Holidays, or for elective procedures which because of intervening emergency procedure(s) commence within this time period, the listed procedural benefit may be increased by 15% or \$7.60, whichever is greater when no other premium applies. E409 may not be claimed for procedures which mainly involve the interpretation of test results. It is not applicable to physicians on duty in the emergency department nor to procedures listed in the Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound sections of the Schedule.

**C109** For special visits on Nights, Saturdays, Sundays or Holidays to perform examinations listed in the Nuclear Medicine, Diagnostic Radiology or Diagnostic Ultrasound sections of the Schedule, add \$7.60 to the benefit for the first examination performed, when no other premium applies.

- (xiv) Assistants' services —

**E400B** For cases commencing after 5:00 p.m. and before 7:00 a.m. or on Saturdays, Sundays and Holidays, the total benefit for assistants' services is increased by 30%.

- (xv) Anaesthetists' services —

**E400C** For cases commencing after 5:00 p.m. and before 7:00 a.m. or on Saturdays, Sundays and Holidays, the total benefit for anaesthetists' services is increased by 30%.

- (b) Special Care Unit (e.g. I.C.U. or C.C.U.) —

**C101** For patients in Special Care Unit such as I.C.U. or C.C.U., if a "subsequent hospital visit (minor assessment)" is chargeable, for each such visit referred, add \$2.10.

19. **Detention:** benefits may be applicable for detention when under very exceptional circumstances a physician is required to spend considerable extra time with a patient. Such extra time must be required at that time, and it must be to the exclusion of all other work.

Claims for detention must be substantiated by an explanation on the claim card or in an accompanying letter, and should be made on an "I.C." basis according to the following guidelines:

After twenty minutes if the physician spends more than this amount of time providing a minor or intermediate assessment or subsequent hospital visit;

After forty minutes if the physician spends more than this amount of time providing a specific or general re-assessment or multiple systems assessment or certification of mental illness;

After one hour if the physician spends more than this amount of time providing a consultation, limited consultation, repeat consultation, prenatal consultation, specific or general assessment.

PREAMBLE

Detention is not meant to apply to procedures and does not include time waiting for X-rays, lab reports, the operating room or for the patient to arrive for assessment or treatment. Moreover, since the pertinent listed obstetrical benefits take attendance at labour into account, benefits for detention are not applicable during the first 15 hours of established labour. For the purpose of counting the hours in established labour, a physician should start counting either from the time he has been advised by the hospital that his patient is in active labour (which may be the time of hospital admission) or from the time that he has assessed the patient and found her to be in active labour. If established labor extends beyond 15 hours, a physician may claim detention for further time during labour spent with and on behalf of the obstetrical patient to the exclusion of other patient care.

K001	Detention, per quarter hour or part thereof .....	\$ 9.70
K101	Detention, while in attendance with patient(s) in ambulance, per quarter hour or part thereof .....	\$16.00

Note: K101 is not applicable to attendance in a vehicle other than an Ambulance.

20. **Independent Consideration — “I.C.”:** independent consideration will be given by O.H.I.P. for those items in the Schedule of Benefits which are listed as I.C.. Claims rendered under this heading must include a specific charge along with a detailed explanation of that charge. Where pertinent, an operative report is very helpful in rendering independent consideration. It also is helpful if I.C. claims include a comparison of the scope and difficulty of the procedure with other specific procedures listed in the Schedule.

21. **Transferral and Referral:**

- (a) A referral takes place when one physician or surgeon requests for his patient the services of another. The services of the latter may consist of:
  - (i) an opinion (i.e. a consultation)
  - (ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.)Note: In such cases the referring physician continues to treat the case himself.
- (iii) treatment (surgical or medical).

The referring physician's O.H.I.P. registration number must be included on the claim submission.

- (b) A transferral, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another in the same field or specialty (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). In such cases, the physician to whom the patient is transferred is not entitled to claim for a consultation. Physicians who are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. Where the care of the patient involves a benefit containing several components such as for surgery or obstetrics the physicians may consider the surgical or obstetrical benefit a team benefit and decide among themselves how each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other providing hospital visits to registered bed patients in active

## PREAMBLE

treatment hospitals, e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

**22. Most Responsible Physician:** is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim for a consultation only.

**23. Concurrent Care:** is where the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant, the family physician may claim on a per visit basis and the consultant may claim for one visit every two days for the first week and then one visit every four days while the patient's condition remains serious — this arrangement being agreeable to both physicians.

**24. Multidisciplinary Care:** is where the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate claim on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in the Schedule.

**25. Supportive Care:** is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician may claim for this care on a per visit basis. It is reasonable to assume that one visit every two days to the seventh day and then one visit every four days thereafter will be sufficient. If medical complications develop or are present in the post-operative period which require active management by the referring physician, claims for hospital medical care should be rendered, not supportive post-operative care.

**26. Specialist:** a specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from the Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.

A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule

**27. Differential Benefits:**

- (a) The rates listed under the column "Practice in General" are those intended to apply when the service is performed by other than a physician certified in the specialty normally considered to encompass the service in question.
- (b) Where only one benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.
- (c) Consultation and visit benefit listings under the heading of General Practice may be claimed by other branches of medicine if the listings do not appear elsewhere in the Schedule.

## PREAMBLE

- (d) Specialists in paediatrics who practice allergy may claim specialist rates for their allergy services regardless of the age of their patients.

### 28. Referring Physician's Services:

- (a) For the services rendered prior to an operation, the referring physician should claim on a "fee-for-service basis", for example:
- (i) Home, Office or Hospital Visits as rendered.
  - (ii) In addition to (i) above, in acute cases, benefits may be claimed for detention if applicable and appropriate (refer to paragraph 19, above).
- (b) (i) For services rendered as an assistant during the operation, the referring physician should claim in accordance with paragraph 30, below.
- (ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should charge on a per visit basis for this service.
- (c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care as outlined in the Schedule.

### 29. Pre-dental Assessment:

A physician, regardless of specialty, who is required to examine a patient in preparation for dental surgery under general anaesthesia may claim \$16.00 when he has seen the patient in the previous twelve months for a general assessment or \$22.90 if he has not seen the patient within the previous twelve months for a general assessment. If the examining physician also administers the anaesthetic only \$16.00 may be claimed in addition to the anaesthetic benefit, for the history and examination required by the hospital on admission.

### 30. Assistants' Services:

- (a) Time units are computed by allowing one unit (\$4.87) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. Time units for assistants' services for periods in excess of two hours per case are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If claims are being made in coded form (see Preamble, part B, paragraph 12), the suffix B should be added to the code for the procedure.
- (b) The basic units should be listed separately from the time units on the claim card. Benefits for assistants' services are determined by multiplying the listed basic units and the time units by \$4.87. For cases commencing after 5:00 p.m. and before 7:00 a.m. or on Saturdays, Sundays and Holidays, the total benefit for assistants' services is increased by 30% (E400B).
- (c) When multiple or bilateral surgical procedures are done during the same anaesthetic, the assistant's benefits shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive full assistant's benefits for each procedure.
- (d) In surgical procedures requiring more than one assistant, benefits for the second assistant shall be computed on the same basis as for the first assistant.

## PREAMBLE

- (e) When a surgeon requires an assistant at a procedure for which no assistant's units are listed, the assistant may calculate the total benefits applicable by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by \$4.87. (See also (f) below.)
- (f) When assistants at surgery claim for procedures for which no assistants' units have actually been listed in the Schedule, the assistants should support their claims with letters of explanation as to why their attendance was required.
- (g) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the benefits shall be based upon 3 units plus time (E003B).
- (h) When an anaesthetic has begun and the operation is cancelled prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units (E006B). If the operation is cancelled after surgery has commenced, the procedural basic unit plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hospital visit only may be claimed.

### 31. Anaesthetists' Services:

- (a) Benefits for anaesthetists' services are for all types of anaesthesia. The rates listed are for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used. If an anaesthetist is asked to see a registered bed patient in consultation more than 36 hours prior to the administration of an anaesthetic, he may claim for a consultation as well as for rendering the anaesthetic. If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia, he may claim a subsequent hospital visit for this service. When an anaesthetic has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (E006C). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply.
- (b) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph 31(k, l,) below).
- (c) Except during maintenance of continuous conduction anaesthesia (G247 pg 93, P015 pg 104), time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours). Following the first two hours of anaesthesia, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).
- (d) Anaesthesia time units may not be claimed by the same anaesthetist for rendering anaesthesia or other time-reimbursed services to more than one patient at the same time.

## PREAMBLE

- (e) Time units and listed basic units should be indicated separately on the claim card. Benefits for anaesthetists' services are determined by multiplying the basic and the time units by \$5.63 for certified anaesthetists and \$5.21 for non-certified anaesthetists. For cases commencing after 5:00 p.m. and before 7:00 a.m. or on Saturdays, Sundays and Holidays, the total benefit for anaesthetists' services is increased by 30% (E400C).

If claims are being made in coded form (see Preamble, part B, paragraph 12) the suffix C should be added to the code for the procedure.

- (f) In special cases where the anaesthetic services of more than one anaesthetist are deemed necessary in the interest of the patient the benefits shall be increased by 50% of that computed for the procedure; each anaesthetist to be entitled to one half of the total benefit.
- (g) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefits shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to receive full anaesthetic benefits for each procedure.
- (h) In procedures where no units are listed or with I.C., the basic units will be based upon those listed for a comparable procedure considering region and modifying conditions or techniques.
- (i) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anesthetic, the anaesthetic "Basic" will be 28 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types may be claimed separately under the appropriate headings.
- (j) An additional 10 units may be claimed when, in association with anaesthesia, "controlled hypotension" is carried out using any technique to deliberately lower and maintain the mean blood pressure at least 25% below the range or normal for that patient. The extra 10 units may be claimed under code E004C.
- (k) Where unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.
- (l) For detention not associated with anaesthesia detention rates and criteria apply (see paragraph 19 above).
- (m) Where the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and where the anaesthetist is in constant attendance the benefits shall be based upon 3 units plus time. If claims are coded, the code is E003C.
- (n) No additional claim should be made for introducing a catheter for continuous conduction anaesthesia, i.e. above the basic of 5 units plus maintenance units to a maximum of 6 units plus the number of time units required for the obstetrical delivery.

## PREAMBLE

- (o) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only.
- (p) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code E002C.
- (q) Where one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should claim the appropriate basic units plus time units and the second anaesthetist may claim for time units only. The second anaesthetist should use code E005C for such time units except in the case of continuous conduction anaesthesia for which code G247 or code P015 (plus E100C) pertain (see also paragraphs 31(c) and 31(n), above), E005C qualifies for the surcharge E400C only if the case originally started within the time stated under paragraph 31(d) above. Each anaesthetist should state on his claim card which part of the anaesthetic is being claimed and the time begun and completed.
- (r) General anaesthesia for the purposes of this Schedule includes all forms of anaesthesia except local infiltration.

O. Reg. 577/75, s. 28."

**PREAMBLE****APPENDIX C****"EMERGENCY DEPARTMENT" CLAIMS****PHYSICIAN ON DUTY****1. Physician on duty.**

When the physician on duty is required by hospital regulations to remain at the hospital, the special call surcharge will NOT apply. Use Codes H103A, H101A or H110A for all physicians regardless of specialty.

When a physician is on duty in the Emergency Department, sees a patient and admits the patient to hospital, this physician may claim a minor or multiple systems assessment depending upon the service initially provided, plus a general re-assessment on admission if provided. Thereafter, when the patient's own physician sees the patient for the first time after admission, this physician may claim only a subsequent hospital visit fee. Alternatively, if the Emergency Department physician does not claim the general re-assessment benefit, the patient's physician may claim for a general assessment when he first examines the patient after admission, provided no other physician already has claimed for the admission assessment.

**2. Physician on Duty on Call.**

When the physician on duty is only required by hospital regulations to be on call, the appropriate special visit surcharge may be claimed for the first patient seen during each special visit to the hospital. However, if he sees more than one patient during this call before leaving the hospital, only the initial call is considered as a special visit. All subsequent patients seen before he leaves, should be coded at H103A, H101A or H110A, at the rate for "on duty."

**SPECIAL VISIT TO EMERGENCY OR O.P.D.****Consultation****1. Consultation, patient not admitted:**

The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) may be claimed.

**2. Consultation, patient admitted:**

(a) The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) followed by hospital visits (if rendered) may be claimed. However, if the consultant also is the "most responsible physician", he may not also claim a hospital in-patient consultation, repeat consultation, general or specific assessment, general or specific reassessment since the initial consultation rendered in the emergency department serves as the admission history and examination.

(b) If the consultant is not also the most responsible physician, the latter may claim the appropriate admission assessment.

## PREAMBLE

### Assessment:

1. **Assessment, patient not admitted —**  
The benefit for the assessment (or re-assessment) plus the appropriate special visit surcharge (K99-) may be claimed.
2. **General/specific assessment plus patient admission —**  
The benefit for the general or specific assessment plus the appropriate special visit surcharge (K99-) followed by hospital visits may be claimed. However, the admitting physician may not also claim a hospital in-patient general/specific assessment or reassessment since the initial general/specific assessment rendered in the emergency department serves as the admission history and examination.
3. **Minor/intermediate assessment plus patient admission —**  
The benefit for the minor or intermediate assessment plus the appropriate special visit surcharge (K99-) may be claimed. In addition, the admitting physician may claim for a hospital in-patient general or specific reassessment if rendered.

### Procedure:

Except for procedures for which the listed benefits specifically include the associated consultation or other assessment, claims may be made for both the procedure and the assessment. Either the emergency procedure surcharge (E409 or C109) or the appropriate special visit surcharge (K99 ) may be applicable, but not both.

### Note:

If a physician has an office in the hospital and is called to assess a patient in the Emergency Department or O.P.D., the special visit premiums do not apply.

## NUCLEAR MEDICINE — IN VIVO

Column T — is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P<sub>1</sub> — is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. The physician must be present for supervision of the procedure to the extent that he or she may intervene personally, if required.

Column P<sub>2</sub> — is the professional benefit for interpretation of results and provision of a written report. If the nuclear medicine specialist is not present, the lesser professional benefit (P<sub>2</sub>) should be claimed.

Notes: (1) The total benefit is arrived at by adding T plus P<sub>1</sub> (first code listed, e.g. Z006) or by adding T plus P<sub>2</sub> (second code listed, e.g. Z925).

When coding the total benefit use suffix A

When coding the technical portion only use suffix B

When coding the professional portion only use suffix C.

(2) If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit. Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit.

For services for which this additional 30% is appropriate the correct code prefix is Y instead of Z. For example for Arteriography plus data manipulation, the appropriate codes are Y006/Y925 instead of Z006/Z925.

The benefits for cardiac wall motion studies and calculation of ventricular ejection fraction (Z010 and Z012) already include an allowance for data manipulation and no additional benefit may be claimed.

(3) If examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P<sub>1</sub> and P<sub>2</sub>) is to be reduced by 30% (use codes Z036/Z957, Z041/Z935, Z080/Z990 respectively).

(4) Repeat studies on the same day may be claimed only after exercise or drug intervention.

(5) The phrase "nuclear medicine specialist" should be interpreted as "nuclear medicine physician", since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.

(6) See also Preamble, part B, paragraph 1(i), 1(j) and 1(k).

CLINICAL PROCEDURES ASSOCIATED  
WITH DIAGNOSTIC NUCLEAR  
MEDICINE PROCEDURES

Such procedural benefits are intended for the professional service of placing an instrument or introducing diagnostic radiopharmaceuticals. They are not intended to be used for simple subcutaneous, intramuscular or intravenous injection nor for oral administration. Rather than double listing the procedures and benefits in this part of the schedule, physicians are directed to the following reference points in the schedule.

- (a) Intravenous injection for peripheral venography-G376 or G379 on page 91, 92.
- (b) Intra-articular injections-G370 on page 91.
- (c) Injection into CSF spaces or shunt apparatus-Z821 on page 219.
- (d) Arterial puncture — G479 on page 82.

NUCLEAR MEDICINE — IN VITRO (See Radioassays under Laboratory Medicine)

## DIAGNOSTIC RADIOLOGY

Column T — The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus; premises, technical services, administration and collection costs.

Column P — The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

### Notes and Interpretations:

1. Private offices and hospital outpatient departments will claim the sum of Columns T plus P.

2. Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.

3. Benefits for clinical procedures related to x-ray examination are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.

4. If less than the minimum number of views are performed, reduce listed benefits by 25% (this reduction applies to both technical and professional component). If more than the minimum number of views are performed, no further benefit is applicable unless specifically listed.

5. If the examinations which are requested by the referring physician yield abnormal findings or if they would yield information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and claim for them (if listed).

6. Claims for X-ray services, when referred by an Osteopath, Chiropractist or Chiropractor to a private X-ray facility are not benefits of O.H.I.P.

7. Claims for X-ray services, when referred by an Osteopath or Chiropractor to a hospital outpatient department are benefits.

### 8. Coding

- When coding the total benefit use suffix A.
- When coding the technical portion only use suffix B.
- When coding the professional portion only use suffix C.
- When coding claims from certified radiologists (33) use the listed codes (i.e. X001-X191) plus the appropriate suffix.
- When coding claims from non-certified radiologists increase the first numerical digit in the listed codes by 5 (i.e. X501-X691) plus the appropriate suffix.

## DIAGNOSTIC RADIOLOGY

9. When a radiologist is asked to x-ray one extremity only, no additional claim should be made for comparison x-rays initiated by the radiologist.

10. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

11. A stereo pair is to be counted as two views.

12. No extra claim should be made for rapid sequence I.V.P.

13. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

14. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where "fluoroscopy" is generally regarded as an integral part of the examination, e.g. examinations of the G.I. tract, urinary tract, special procedures.

15. "Colon — air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

16. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

17. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

18. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

19. Chest studies should not be routinely done and claimed in mammography cases.

20. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

21. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

22. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should determine which examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed, a single film is usually inadequate.

23. Conventional films of the spine should not be routinely done and claimed before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they had been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

24. Pharynx and oesophagus (cine or videotape) — X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

DIAGNOSTIC RADIOLOGY

25. Lumbar or lumbrosacral spine (X028, X205, X206) does not include the entire sacrum. However, an examination of the sacrum may be carried out and claimed only when specifically indicated.

CLINICAL PROCEDURES ASSOCIATED WITH  
DIAGNOSTIC RADIOLOGICAL EXAMINATIONS

- Note:**
- 1. These procedural benefits are intended to cover compensation for the professional service of placing an instrument and introducing contrast media (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.
  - 2. Radiological charges are additional: see similar entries under section on RADIOLOGY.
  - 3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

## DIAGNOSTIC AND THERAPEUTIC PROCEDURES

- Code** With a few exceptions specifically indicated below, the listed procedural benefits are for the procedure(s) alone.
- Consultations or visits when such services are rendered, may be claimed in addition to the procedure(s).
- G700** When a procedure(s) is the sole reason for a visit, add \$2.80 per patient visit for those procedures marked ( + ) regardless of the number of procedures carried out during that visit. However, if the visit is to a diagnostic facility controlled directly or indirectly by a physician who has examined and referred the patient to such a diagnostic facility on the same day, G700 may not be claimed under these circumstances.

**Note:** G700 is not payable to a hospital department.

### Schedule Interpretations:

1. If in the course of any visit (see Preamble, Part B), a haemoglobin screen (any method or instrument) is carried out, code G481 may be claimed for this service (see page 82). Urinalysis may be claimed with or without an associated visit to a physician's office. Except for routine screening and services which are not medically necessary (see Preamble, part A, paragraph 2).

2. Claims for apex cardiography and E.C.G. may be made when both services are rendered.

3. For the first minor teleradiotherapy procedure rendered to a patient, the physician may claim the appropriate consultation or assessment in addition to the procedure(s). On subsequent visits, only minor teleradiotherapy plus \$2.80 should be claimed unless additional procedures have been performed or unless there has been a complication or change to a totally unrelated diagnosis. In the first exception, minor teleradiotherapy plus the benefit(s) for additional procedures may be claimed. In the second exception, the appropriate assessment and minor teleradiotherapy may be charged.

4. If, in addition to the allergy injection, the patient requires a minor assessment only of his allergic condition, the physician may claim for code G212 only. However, if a patient requires a more complete assessment of his condition or if a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition any of which would have otherwise required a separate office visit, the physician is entitled to claim for the appropriate assessment as well as the injection.

5. The benefits for respiratory care on pages 87, 88 of the schedule under Physician-in-Charge apply per patient treated, i.e., while the physician-in-charge may change during the course of treatment, the benefit formula as set out should be used by the physicians involved as there was only one physician-in-charge during the treatment program.

6. The \$4.20 benefit under Physical Medicine Therapeutic Procedures means one \$4.20 per hour, per patient regardless of the number of procedures carried out during the hour.

## DIAGNOSTIC AND THERAPEUTIC PROCEDURES

7. Multiple B.C.G. inoculations used for treatment of carcinoma are to be considered experimental and no claims should be made for this service.

8. Some benefits for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. However, when only one benefit is listed for a service, it represents the professional component only. The technical component includes the salaries of support staff, equipment depreciation or lease costs, supplies and costs associated with the preparation of a written report. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report.

### ANATOMICAL PATHOLOGY, HISTOLOGY AND CYTOLOGY (Professional components only)

## OBSTETRICS

1. Obstetrical care includes a complete history and physical examination, routine prenatal visits, care during labour up to 15 hours (after 15 hrs. see Preamble, Part B, paragraph 19), delivery, post partum care and post-natal office visit.

2. The listings under Divided Care are to be used when more than one physician is providing different components of obstetrical care to the same patient. If an obstetrical patient is referred to a consultant for delivery because of the complexity, obscurity or seriousness of the case, the consultant may claim a consultation in addition to the appropriate delivery benefit listed under "Divided Care." If an uncomplicated obstetrical patient is transferred from a family physician to an obstetrician for confinement, no consultation or assessment should be claimed since this is not a referral. If the consultant is called by the family physician at the time of delivery and performs only a minor part of the delivery (eg: re-application of forceps, confirmation of position), he should claim a consultation only and the family physician should claim for the delivery. However, if the consultant performs a major portion of the delivery (eg: forceps rotation), he rather than the family physician should claim for the delivery. In this instance, the family physician may claim for the other listed services which he actually provides.

Attendance at labour and attendance at delivery is applicable when rendered if a physician refers an obstetrical patient to a consultant for obstetrical care because of complications but does not apply when a patient is transferred for normal care.

3. When a patient visits a physician for a diagnosis of pregnancy and subsequently attends another physician for full obstetrical care, up to two diagnostic visits may be allowed to the first physician without any reduction of the total benefit for the second physician. Where obstetrical care is divided by transferral between two physicians, the prenatal component of the benefits applicable to each physician shall be allowed on a "fee-for-service" basis provided that neither physician's claim individually exceeds the benefit for prenatal care.

4. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital care should be claimed on a per visit basis.

5. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled visits, the physician may claim appropriate visit benefits in addition to her obstetrical care.

6. The listings under the heading Referred Services may be claimed by consultants in addition to the appropriate consultation or visit. They may not be claimed by physicians provid-

## OBSTETRICS

ing total obstetrical care to their own patients and they may not be claimed in addition to the services listed under "Divided Care."

7. If a consultant is requested by another physician to perform a surgical induction of labour or emergency removal of Shirodkar sutures (except at delivery), he may claim a consultation for these service(s).

8. Medical induction or stimulation of labour may only be claimed *once per pregnancy* and only when carried out for recognized obstetrical complications and does not qualify for detention. When labour is prolonged to the point where a physician would qualify for detention charges and when medical induction or stimulation of labour has been rendered, a physician may claim for detention *or* for medical induction or stimulation of labour but not for both

9. Ordinary immediate care of the newborn is included in the obstetrical benefit and, when the service is rendered by the anaesthetist, it is included in the anaesthetic benefit. Active resuscitation of the newborn provided by any physician may be claimed under codes G521, G522 (Life Threatening Emergency Situation). When this service is rendered by an anaesthetist during the administration of anaesthetic, the time claimed must be deducted from the total anaesthetic time.

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed.

11. When an obstetrician routinely *transfers* all newborns to the care of a paediatrician, the latter should not claim consultation benefits for these "transferrals". If the baby is well, the paediatrician may claim the newborn care in hospital benefit of \$29.20 plus \$31.30 for code H267 (page 47), attendance at maternal delivery (if this service is given). If the baby is sick, such paediatrician may claim for a general assessment and for attendance at maternal delivery (if this service is given) plus daily visits for as long as the paediatrician's services are required. If an obstetrician normally cares for newborns himself or transfers the care of newborns to a general or family physician but refers a perinate to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for his service according to the following guidelines:

- (a) if a pre-natal consultation is performed, code C665 may be claimed on the mother's card (see Preamble, Part B, paragraph 1 (1)).
- (b) if attendance at maternal delivery is rendered, code H267 may be claimed and, if a general assessment of the baby is carried out, code C263 may be claimed as well. However a post-natal consultation on the baby (C265) may not be claimed in addition to H267.
- (c) If the paediatrician has not attended the delivery, a post-natal consultation may be claimed (if this service is rendered) even though a pre-natal consultation may already have been claimed.

12. When a physician provides prenatal care, attends at labour, assists or administers the anaesthetic at Caesarian Section (or other operative delivery) and visits the patient post-operatively, he is entitled to claim for prenatal care, attendance at labour and attendance at delivery, assistant's or anaesthetist's benefits for Caesarian Section, (or anaesthetist's benefits for other operative delivery) and supportive care while the patient is in hospital.

## OBSTETRICS

13. If a foetus is aborted at less than 20 weeks gestational age, codes P001, P005, P006, etc. are not applicable. "Visit fees" should be claimed instead.

14. The Preamble applicable to Surgical Procedures (pages 107-110) also applies, where appropriate, to Obstetrics.

## SURGICAL PROCEDURES

### Preamble:

FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE 12.

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGE 13.

- (1) The surgical benefit (except for fractures or dislocations requiring closed or no reduction and other procedures either marked "I.O.P." or including complete care) includes hospital visits rendered by the surgeon two days prior to surgery, the usual operative procedure, the usual post-operative care rendered by the surgeon while the patient is in hospital, and one office visit for follow-up examination, if necessary. The surgical benefit as noted above no longer includes the major pre-operative visit (e.g. consultation, general assessment, etc.) at which the decision to operate is made, regardless of the time interval between the major pre-operative visit and the surgery. The hospital admission assessment (see Preamble, Part B, paragraph 14) may not be claimed by the surgeon unless it happens also to be the major pre-operative visit as defined above. Visits rendered prior to admission (excluding admission assessments) and hospital visits (minor assessments) may be claimed in addition to the surgical benefit. For patients remaining in hospital because of complications, visit benefits may be claimed in addition to the surgical benefit after the second post-operative week. The starting point for calculating the appropriate hospital visit benefit after the second post-operative week is the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital.
- (2) When a physician makes a special trip to perform a non-elective surgical procedure during the daytime (Monday to Friday), he may claim the appropriate special visit, a consultation if the case is referred (except for fractures or dislocations requiring closed or no reduction) or the appropriate assessment if the case is not referred plus the procedural benefit(s). When the special visit is to deal with fractures or dislocations requiring closed or no reduction, a minor assessment is the appropriate benefit to be added to the special visit and fracture or dislocation benefits. If the non-elective procedure is carried out at night (after 5:00 p.m. and before 7:00 a.m.), or Saturdays, Sundays and Holidays, the physician may claim the special visit applicable to the consultation or assessment, or the surgical premium E409, whichever is greater (see Preamble, Part B, paragraph 18).
- (3) When more than one operative procedure is performed by the same surgeon at the same time and/or under the same anaesthetic or during the same hospitalization for the same condition, the benefit shall be the full benefit for the major procedure plus 85% of the listed benefit(s) for additional procedures, unless otherwise indicated in the Schedule and except where such combined operations are independently specified as items in this Schedule. This paragraph applies to staged procedures and to each side of bilateral procedures, but does not apply in the case where a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no charge should be made (see also OHIP Bulletin #4122, July 3, 1979).
- (4) When a subsequent operation(s) becomes necessary for the same condition because of a complication, the full benefit will apply for each procedure.

## SURGICAL PROCEDURES

- (5) When a subsequent non-elective operation(s) is performed for a new condition, the full benefit will apply for each procedure.

When a subsequent elective procedure is done for a different condition during the same hospitalization, the benefit for the lesser procedure shall be reduced by 15% unless performed by another surgeon in which case the full benefit will apply.

- (6) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the listed benefit for each condition. Under these circumstances, the basic assistants' units should not be claimed by either operating surgeon; however time units may be charged when appropriate.

- (7) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should claim for the surgical procedures and the other surgeon should claim the assistant's benefit.

- (8) Where two surgeons are working together in surgery in which neither a team benefit or other method of claiming is set out in the schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each providing a separate service in his own specialized field, each surgeon may claim the full listed benefit for the procedure he performs. This, however, does not apply to those cases wherein an additional surgeon(s) is involved simply because he may be more skillful at carrying out a procedure which the first surgeon normally should be able to do. Neither does it apply to those cases wherein one or more additional surgeon performs components of a main procedure for which there is a listed combined tariff. For the latter two circumstances, the first portion of this paragraph pertains and the additional surgeon(s) may claim assistant's benefits only, along with consultation and visits if appropriate. If a surgeon, in addition to performing a specialized portion of the procedure, acts as an assistant during the remainder of the procedure, he may also claim time units (but not basic units) for assisting.

- (9) Unless otherwise stated, the listed procedural benefits are for unilateral procedures.

- (10) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and/or visit benefits for procedural benefits (except as in paragraph 11), is not in keeping with the intent of the schedule.

- (11) For fractures and dislocations requiring closed or no reduction and for other procedures which include complete care, when the listed benefit is less than the consultation benefit and the case is referred, the physician may claim for the consultation instead of the surgical benefit. However, to avoid the consultation being counted as such under the OHIP limitation rules of one consultation per year, the physician should claim for the consultation under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.

- (12) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician may claim for the procedure as well as for the appropriate assessment.

## SURGICAL PROCEDURES

- (13) Where a procedure is specified as "Independent Operative Procedure (I.O.P.)", the procedural benefit may be claimed in full. In addition, visit benefits, consultations etc. may be claimed when such services are actually rendered. When an I.O.P. procedure is done in conjunction with other non-I.O.P. procedures, there shall be no charge for the consultation, pre- and post-operative care related to the I.O.P. procedure but the listed I.O.P. benefit may be charged in these circumstances. When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits may be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed.
- (14) When procedures are specifically listed under Surgical Procedures, physicians should use these listings rather than applying one of the plastic surgery benefits listed under operations on skin and subcutaneous tissue.
- (15) For excision of tumours not specifically listed in this Schedule, claims should be made on an I.C. basis (code R993). Independent consideration also will be given (under code R990) to claims for other unusual but generally accepted surgical procedures which are not listed specifically in the Schedule (excluding non-major variations of listed procedures).  
In submitting claims, physicians should relate the service rendered to comparable listed procedures in terms of time and difficulty (see Preamble, Part B, paragraph 20).
- (16) Cosmetic or Aesthetic Surgery: means a service to enhance appearance without being medically necessary such as surgery for correction of facial wrinkles, surgery for eyelid wrinkles (symmetrical and without a functional problem), rhinoplasty for appearances only, etc. These services are not benefits of OHIP. (See Preamble, Appendix A).
- (17) Reconstructive Surgery: is surgery to restore normal appearance and function to any area altered by disease, trauma or congenital deformity. Although surgery solely to restore appearance may be included in this definition under certain limited conditions, emotional, psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery.

Physicians should submit requests to their District OHIP office for authorization of any proposed surgery which may fall outside of OHIP coverage. Among those procedures for which requests *must* be submitted before the procedure is performed are:

- (a) augmentation mammoplasty (excluding post-mastectomy breast reconstruction)
- (b) blepharoplasty
- (c) dermabrasion (excluding face and neck)
- (d) epilation of hair
- (e) face lift
- (f) hair transplant
- (g) panniculectomy, lipectomy
- (h) reduction mammoplasty

## SURGICAL PROCEDURES

Requests for authorization of proposed surgery should identify the medical necessity of the surgery. Moreover, since it is the procedure for which the authorization request is being made, it must be adequately described and accurately related to the condition it is intended to alleviate.

Note that when a surgical procedure is not a benefit of the Plan, the associated anaesthetist's charges, assistant's charges and hospital costs normally also are excluded from OHIP coverage.

- (18) Procedural benefits (non I.O.P.) include the removal of sutures where both services are rendered by the same physician unless the removal of sutures is done after one office visit for follow up examination has already been provided. When a physician is entitled to claim for removal of sutures i.e. as outlined in the previous sentence or is a physician other than the operating surgeon or following an I.O.P. procedure, the benefit for an office visit may be claimed in addition.
- (19) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity may be given independent consideration.
- (20) When a procedure is performed for which only "local anaesthetic" and/or "general anaesthetic" listings appear, and an anaesthetic is not required, the procedure should be claimed under the "local anaesthetic" listing. When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only.
- (21) Where only one benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.
- (22) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.

Notes: (1) The benefits for Z178 include the use of sutures, local anaesthetic, tetanus toxoid and routine observation until the sutures have been removed.

- (2) With the accord of the Ontario Medical Association, the following guidelines are suggested to assist in the determination of an appropriate charge to submit for independent consideration under Code Z178 for suture of skin lacerations:
- 1. The suturing of most simple lacerations smaller than approximately 1½" in length should be coded as Z176 and claimed accordingly.
  - 2. The suturing of other lacerations should be claimed under code Z178 on an Independent Consideration basis according to the following guidelines:
    - (a) The stated benefits are for suturing the laceration only; the appropriate consultation or visits may be claimed in addition.
    - (b) Simple lacerations with a length greater than 1½" but less than approximately 3" . . . . . 17.40

- (c) Lacerations in difficult area (e.g. lip, eyelid, eyebrow, corner of eye, etc.) or which are deep such that they require tying off bleeders and/or closure in layers (i.e. subcutaneous and cutaneous) ..... 17.40
  - (d) Lacerations involving components of both (b) and (c) ..... 34.80
  - (e) Lacerations requiring extensive debridement, add 50%.
  - (f) A combination of 2 or 3 lacerations falling within the foregoing guidelines would require individual assessment of each laceration. E.g.: for the suturing of a 2½" scalp laceration requiring tying off bleeders and/or layer closure, a 1" cheek laceration and ½" laceration through the mucocutaneous border of the lip, the benefit claimed could be calculated as follows:
    - Scalp (d) .....\$34.80
    - Check (Z176) ..... 6.95
    - Lip (c) ..... 17.40
    - Total (Z178) .....\$59.15
  - (g) More complicated lacerations should be compared in scope and difficulty with other similar services which have definitive benefits listed in the Schedule.
3. In every case, claims for Z178 should be accompanied by sufficient description of the procedure rendered and an explanation of the charges submitted (*see Preamble, Part B, paragraph 20*).

- (3) Skin grafts or pedicle flaps done during a procedure should be claimed for on their own merit (unless specifically listed as being inclusive for that procedure).

#### Preamble

- (1) Except for application of cast brace, no claim should be made for application of plaster if applied at the time of any surgery. The benefits for the treatment of fractures and/or dislocations also include initial and subsequent application of cast(s) (see also Fracture Preamble, paragraphs (e), (1)) However, if plaster is applied under any other circumstances, the claims for application of plaster should be made in accordance with the schedule listings on page 124.
- (2) Corrective splints must be "corrective" to qualify for benefits. The corrective splint listings are not applicable to simple immobilization such as with a Jones bandage or a metal finger splint following soft tissue injury.
- (3) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be charged for in addition to the procedural benefit.
- (4) The benefit for total hip replacement also includes denervation of the hip joint and adductor or abductor tenotomy
- (5) Where closed irrigation is instituted in a bony cavity, soft tissues or joint during a surgical procedure, add \$36.15 (E550).
- (6) Where a bone graft is required (except for fusions and management of pseudarthrosis) in the course of an operative procedure (including treatment of fractures) add \$45.20 (E551) if autogenous bone is taken through a separate incision; add \$36.15 (E552) if autogenous bone is taken through the same incision, and add \$18.10 (E553) if homogenous bone is used. If methylmethacrylate is required for internal fixation in the course of an operative procedure (with the exception of insertion of prostheses and cranioplasties), add \$45.20 (E547).
- (7) Cost of materials is not a benefit of OHIP.

#### FRACTURES AND DISLOCATIONS

##### Preamble

- (a) OPEN REDUCTION shall mean the reduction of a fracture or dislocation by an operative procedure to include the exposure of the fracture or dislocation or intramedullary means of fixation.
- (b) CLOSED REDUCTION shall mean the reduction of a fracture or dislocation by non-operative methods (to include skin traction or K wire or Steinmann's pin for balanced traction.)
- (c) FOR CLOSED REDUCTION with external skeletal or Roger Anderson type apparatus or percutaneous pinning of a fracture or dislocation, the closed reduction benefit plus 40% (E555) may be claimed.
- (d) NO REDUCTION shall mean the treatment of a fracture or dislocation by any method other than that designated in (a), (b), or (c) above.
- (e) The listed benefits for fractures or dislocations requiring closed or no reduction include the major pre-operative visit. For fractures or dislocations requiring open reduction, the major pre-operative visit (e.g. consultation, general assessment, etc.) may be claimed in addition to the listed benefits for open reductions.  
The stated benefit is to cover full treatment by the physician claiming that benefit, including initial and subsequent application of cast(s) and necessary after care up to 2 months includes Therapeutic Procedures under G467), except as in (g) and (h) following.
- (f) For combinations of fractures, dislocations, and/or surgical procedures (non I.O.P.), the benefit for the major fracture, dislocation or procedure shall be 100%, and the benefit for other fractures, dislocations and/or surgical procedures shall be 85% of the full listed benefit.
- (g) In cases where two or more reductions (closed or open) are performed on different occasions for one fracture or dislocation by one or more surgeons; the full benefit should be claimed for the final reduction and after care. Previous attempted reductions(s) should be claimed at 75% of the full listed benefit(s) for that reduction.
- (h) When a patient is transferred from an acute care hospital to a chronic or convalescent facility, additional benefits on a chronic care basis shall be allowed to other than the operating surgeon. These benefits shall be based on the chronic care schedule.
- (i) Compound fractures or dislocations, requiring extensive debridement — 50% over the benefit for reduction (E556).
- (j) If reconstructive procedures on soft tissues are required, such services should be claimed on their own merit.  
If bone grafts are used in open reduction of a fracture, paragraph (6) of the Preamble to the musculoskeletal system applies.
- (k) When a patient is transferred to another surgeon for after care of a fracture or dislocation treated by no reduction or closed reduction, except for emergency splinting (see para-

### OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

graph (l), below) the surgeon rendering the initial care should claim 75% of the listed benefit and the surgeon rendering the subsequent care 50% except where otherwise specified. In cases involving open reduction, the percentages should be 80% and 45% respectively.

- (l) The benefit for emergency splinting of a fracture in the emergency department should be on the basis of the emergency room visit or the special visit to the hospital, whichever applies, plus application of cast if rendered and if consistent with other portions of this preamble.
- (m) In the case of fractures or dislocations or minor avulsion fractures not requiring reduction, visit benefits (use a fracture diagnosis) shall apply unless a specific benefit is listed. For fractures listed at "visit fees", the following also apply:
  - (1) When two or more fractures, *each* listed at "visit fees", are treated, only one visit benefit should be claimed for each visit, even though more than one fracture is assessed, treated, or re-assessed.
  - (2) When fractures or other procedures which are listed at "visit fees" are treated along with treatment of fractures which have definite benefits listed, visit benefits should not be claimed in addition to claims for other fracture care.
  - (3) When fractures or other procedures which are listed at "visit fees" are treated along with the performance of non-IOP surgery, visit benefits should not be claimed in addition to claims for the surgery.
  - (4) For the combinations described in items (2) and (3) above, visit benefits are appropriate for follow-up care of the fractures listed at "visit fees" only for visits which, because of these fractures, are required in addition to the usual after-care of the other fractures or other surgery.
- (n) In case of fractures or fracture dislocations with associated paraplegia, hospital visit benefits may be charged in addition to the surgical benefit after three weeks of post-operative care.
- (o) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be charged for in addition to the procedural benefit.

O. Reg. 120/80, s. 5.

6. Schedule 16 to the said Regulation, as made by section 3 of Ontario Regulation 290/79 and amended by section 2 of Ontario Regulation 889/79, is revoked and the following substituted therefor:

## Schedule 16

## LABORATORY MEDICINE

Note: Claims for laboratory services, when referred by a Dentist, Osteopath, Chiropodist or Chiropractor are not insured services.

## PREAMBLE:

1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left as a sufficient level to cover administrative costs. This benefit is not applicable to referred-in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.
2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.
3. A number of tests are listed in different sections of the schedule, i.e. when more than one method of performing the test is available, e.g. aminophylline is listed under both Radioassays and Biochemistry.
4. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.

Note: The glucose tolerance test (G.T.T.) is not listed in this Schedule. Therefore, when requesting a laboratory to perform a glucose tolerance test, the physician should specify the number and frequency of blood sugar determinations and urinalyses desired. Unless such specifications are given, laboratories should carry out the "standard" 3 hour glucose tolerance test of 5 blood glucoses and 5 urine glucoses (See OHIP Bulletin #4124, July 13, 1979). Ketones should not be routinely claimed with G.T.T.

5. Code L418 may not be claimed by a physician in addition to claim(s) for any treatment or assessment. However, Code G481 (see page 82 of the 1980 OHIP Schedule of Benefits) may be claimed by a physician if a haemoglobin screen (any method or instrument) is carried out in the course of an office or home visit. Urinalysis may be claimed with or without an associated visit to a physician's office (except for routine screening and urinalyses which are not medically necessary).
6. When a screening culture method (e.g. Agar spoon) is used on a urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed.
7. The Physician assumes responsibility for all cytology smears and the professional benefits (L804 to L815 inclusive, and L826) listed in the section on Diagnostic and Therapeutic Procedures in the OHIP Schedule of Benefits are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.
8. Only those tests which are requested are to be claimed with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be incomplete, insufficient or meaningless to the referring physician, the medical director of a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.

LABORATORY MEDICINE

9. A test must be completed in accordance with the pertinent Schedule listing in order to charge for it. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimations: creatine does include creatinine (as specified). Notwithstanding the foregoing and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.
10. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported, or for control tests or repeat tests on the same patient sample.
11. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.
12. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine should be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion (i.e. a certain quantity per m.g. of creatinine) the performance of a creatinine is mandatory and may be claimed).
13. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by a serial titration, both the screening and titre fees may be claimed. If the titration is a micro technique using plates, it is the equivalent of a tube titre, the wells being miniature tubes.
14. It is recognized that when Wet Preparation (L653) has been used to search for trichomonas, it may be claimed in addition to L625 or L627. L653 also may be claimed when Wet Preparation is used for direct examination of a fresh specimen for vegetative amoebae or similar parasites. However, the wet preparation used in the faeces concentration technique for parasites and ova is included in L650.  
The conditions set down in paragraph 8 of this preamble must be adhered to.
15. It is recognized that in all laboratory tests there is a professional component
16. The maximum number of units which may be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit); L399 (WBC Count) and L397 (RBC Count) is 11 LMS units, whether automated, semi-automated or manual methods are used. L700 is not included in this total and may be claimed separately, if appropriate. Code L470 has been deleted from this schedule. Laboratories using multichannel equipment and previously claiming under Code L470 should now use individual codes as described above.
17. The maximum number of units which may be claimed for any combination of the tests represented by the following codes will be 40 LMS units per patient visit per day:

L005	L061	L194	L223	L252
L030	L067	L204	L225	
L045	L111	L208	L226	
L053	L191	L222	L251	

This maximum of 40 units applies on a per patient basis, regardless of the number of specimens submitted and regardless of the number of laboratories involved in performing the individual tests. Code L700 is not included in this maximum and should be claimed separately, if appropriate.

## LABORATORY MEDICINE

18. The maximum number of units which may be claimed for any combination of chemical analyses performed on a single sample by means of an automated chemical analyzer with simultaneously functioning channels is 18 LMS units (L225).
19. The definitions and guidelines in this paragraph apply to the Blood Bank section of Laboratory Medicine:
  - (a) L471 Antibody Identification—incomplete antibodies. A panel of any number of cells regardless of suspending media or technique used. Preparation of eluate and/or antibody absorption is included.
  - (b) L472 Antibody Identification — complete antibodies. A panel of any number of cells for the identification of complete antibodies by direct agglutination.
  - (c) L473 Parallel Titration — to be used when two sequential patient serum specimens are tested to detect a change in antibody titre. Includes a repeat antibody identification on the current sample.
  - (d) L490 Blood Group — ABO and Rh<sub>c</sub>(D). The subgroups of A and RhD<sup>u</sup> are included where indicated. A direct AHGT is also included in L490, therefore, L495 may not be charged on the same patient when this code is claimed.
  - (e) L492 Crossmatch. When an initial crossmatch is requested the appropriate claim is for L490 x 1, L482 x 1 plus L492 for each unit ordered. L490 and L482 may not be claimed more than once on the same day of service. L490 and L493 may not be claimed when these procedures are carried out as a confirmatory test on the units of blood to be transfused.
  - (f) L493. This listing includes L490 (see (d), above) and Rh genotype to include the antigens C, D, E, c, e, and D<sup>u</sup> when indicated. Any other antigen is to be claimed under L494.
  - (g) L494 Blood Group per antigen. Antigens stated in L493 and L490 are excluded from this listing.
  - (h) L495 Direct AHGT. This listing may be claimed when ordered as a single procedure or in addition to L482 when the latter is requested as a single procedure. L495 may not be claimed when L490 or L493 is claimed with L482 on the same patient on the same visit.
20. Antibiotic sensitivities should not be done routinely, but only when, by reason of its identification and/or its concentration, the isolated organism has a high probability of being pathogenic.
21. The use of Nickersons Medium as a screening test for yeast is not a benefit.
22. The carcinoembryonic antigen test (CEA) L690 is not to be used as a general cancer screen. It is to be used only for following established malignancies.
23. This preamble is intended to apply to everyone using codes L700 and L001 to L724 in the Laboratory Medicine Schedule and codes L800 to L828 listed in the section on Diagnostic and Therapeutic Procedures in the OHIP Schedule of Benefits.
24. The benefits for patient documentation and specimen collection and each test are calculated by multiplying the individual L.M.S. unit values by 0.390.
25. Laboratory tests on specimens sent outside Ontario are not a benefit of the Plan.
